Section A Part 1 – Introduction

Welcome to Creating Sentence Fluency, a one-unit course that is part of the Teaching the Foundation for Skillful Writing Series designed for Dominican University of California, Division of Continuing Education. This course supports the implementation of the Common Core Anchor Standards for Writing.

This course guides the participant through meaningful exercises, to be able to skillfully teach the trait of sentence fluency, using known strategies. The participant will develop useful, targeted student-based activities that can be used in the classroom, a cache of writing prompts, a targeted rubric or scoring guide, and an individualized lesson plan that conforms to Common Core standards.

This course is part of a larger series, Teaching the Foundation for Skillful Writing, which lays out a systematic approach to the teaching of writing, one aspect at a time, using six traits of writing vocabulary.

Before taking this course, Creating Sentence Fluency, you must have completed the prerequisite course Assessing the Traits of Writing. It lays the foundation for the series and introduces all the traits. The four follow-on courses are:

- Ideas and Organization (2 units)
- Finding Voice in Writing (2 units)
- Word Choice Selection (2 units)
- Creating Sentence Fluency (2 units)

The traits of Conventions and Presentation are woven into all the courses, and will be demonstrated by you in the quality of the coursework that you submit.

Using the traits of writing helps make the most of the opportunities to practice writing. In today’s standards-based educational environment, with much emphasis on preparing for annual testing, teachers must carefully choose their focus. Helping students to hone one trait at a time gives developing writers time to review and assess their work in more depth, with the meaningful intention of improving their writing.
This course aligns with Common Core College and Career Readiness Anchor Standards for Writing. It especially supports CCR #4, Producing Clear and Coherent Writing, and CCR #5, Developing and Strengthening Writing. Using the traits of writing promotes writing to learn, higher-order thinking, problem-solving and critical thinking, analysis and discussion that the Common Core requires.

The following book is essential to completing the course(s): *Creating Writers Through 6-Trait Writing Assessment and Instruction* by Vicki Spandel, Pearson Allyn & Bacon, 5th Edition. (ISBN 020561910X)

Please note: specific page numbers in the assignments are referenced for the 5th edition and will not match any of other editions.

COMMON CORE ALIGNMENT AND SUPPORT

The specific Common Core grade level standards correspond to the Anchor Standards by number. The overarching Anchor Standards are broad. The corresponding grade level standards target the specific skills and understanding that students will work on at each grade level.

(Grades K-5, Grades 6-8, and High School) correspond to these anchor standards by number. The CCS Anchor Standards and the grade-specific standards are complementary. The former provide broad standards, while the latter provides specific skill and understandings that students must demonstrate at a grade level.

To find the specific writing skills and understandings targeted for your own grade level, look at the Common Core Standards for Writing, by number, for your grade level. The CCS can be found in many places on the Internet. One site for the complete standards is: http://www.scoe.net/castandards/agenda/2010/ela_ccs_recommendations.pdf/. However, you might find it quicker and more useful to target the search for your own grade level standards.

This course supports the following Common Score Anchor Standards for Writing:

CCR 4. Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience.

CCR 5. Develop and strengthen writing as needed by planning, revising, editing, rewriting, or trying a new approach.

CCR 6. Use technology, including the Internet, to produce and publish writing and to interact and collaborate with others.
Category: Research to Build and Present Knowledge

CCR 7. Conduct short as well as more sustained research projects based on focused questions, demonstrating understanding of the subject under investigation.

CCR 8. Gather relevant information from multiple print and digital sources, assess the credibility and accuracy of each source, and integrate the information while avoiding plagiarism.

CCR 9. Draw evidence from literary and or informational texts to support analysis, reflection, and research.

Category: Range of Writing

CCR 10. Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences.
