Communicative Thinking

EDUO 9829

1 Semester Credit/Unit

Instructor – Ryan Pickett

rpickett@dominicancaonline.com

Note: This is a Public syllabus of the course. For a full detailed syllabus please email the instructor.

Course Overview

Welcome to **EDUO 9829 Communicative Thinking**. This class was created by Dominican University of California in conjunction with Educational Development and Services as part of a seven course series entitled **Core Thinking Skills**. This series is designed to help teachers learn strategies that will significantly improve their ability to teach the Common Core State Standards. The content learned in the class, Communicative Thinking, will prepare you to teach your students how to make sense of information and share their thinking with others. In order to effectively present ideas to others, a person must first be able to reason through information. Once they have made sense of the information, they must connect or synthesize it into meaningful patterns and present the information in a way that accurately represents their ideas. By meeting the requirements of this class, participating teachers will earn one semester unit of graduate level extension credit from Dominican University of California, a fully accredited university. The other six courses in the series are:

- **EDUO 9824 Cognitive Transfer**
- **EDUO 9825 Creative Thinking**
- **EDUO 9826 Complex Thinking**
- **EDUO 9827 Comprehensive Thinking**
- **EDUO 9828 Collaborative Thinking**
- **EDUO 9830 Critical Thinking**

All seven courses in the **Core Thinking Skills** series require the same book titled How to Teach Thinking Skills Within the Common Core by James Bellanca, Robin Fogarty, & Brian Pete. This book is available for purchase at www.amazon.com.

Course Objectives:

After completing the course titled Communicative Thinking, you will demonstrate or indicate:

- How to teach students the skill of reasoning through information.
- How to teach students the skill of connecting information to meaningful patterns.
- How to teach students to communicate an accurate representation of their ideas.
- The ability to plan lessons or activities that teach Communicative Thinking.

Course Relation to CCS or other Professional Standards

This course aligns with the Common Core standards found at <http://www.corestandards.org> .

Course Assignments Preview:

1. Current Practice/Reflection

For the first assignment you will explore how your current practices allow students to reason, connect information, and accurately communicate their ideas.

2. Reason

While completing assignment two, you will learn how to help your students use the skill of reasoning.

3. Connect

In this section you will learn how to help your students connect information into meaningful patterns.

4. Represent

For this assignment you will learn how to help your students accurately communicate their ideas to others.

5. Communicative Thinking

In the final assignment you will review everything you learned and provide an explanation as to how your new knowledge will help your students become communicative thinkers and achieve success on the current standards.

Course Assessment Rubric

Exemplary: A+ to A-	Acceptable: B+ to B-	Unacceptable Must be resubmitted
Reflective, thoughtful ideas relevant to the assignment are clearly stated	Presents some relevant ideas and connections to the assignment	Ideas are not clear or relevant
Very well organized	Generally well organized	Shows little or no organization
Responses relate numerous facts and specific details of the program materials	Some facts and specific details of the program materials are included	Few or no facts or specific details of the program materials are included
Free of spelling and/or grammatical errors	Writing contains a few spelling and/or grammatical errors	Numerous spelling and/or grammatical errors make the writing difficult to read

- You are allowed 9 months to complete the course. Course questions? Contact your instructor by email.
